

tutorial coleta de dados PlugShare

abrir <https://www.plugshare.com>

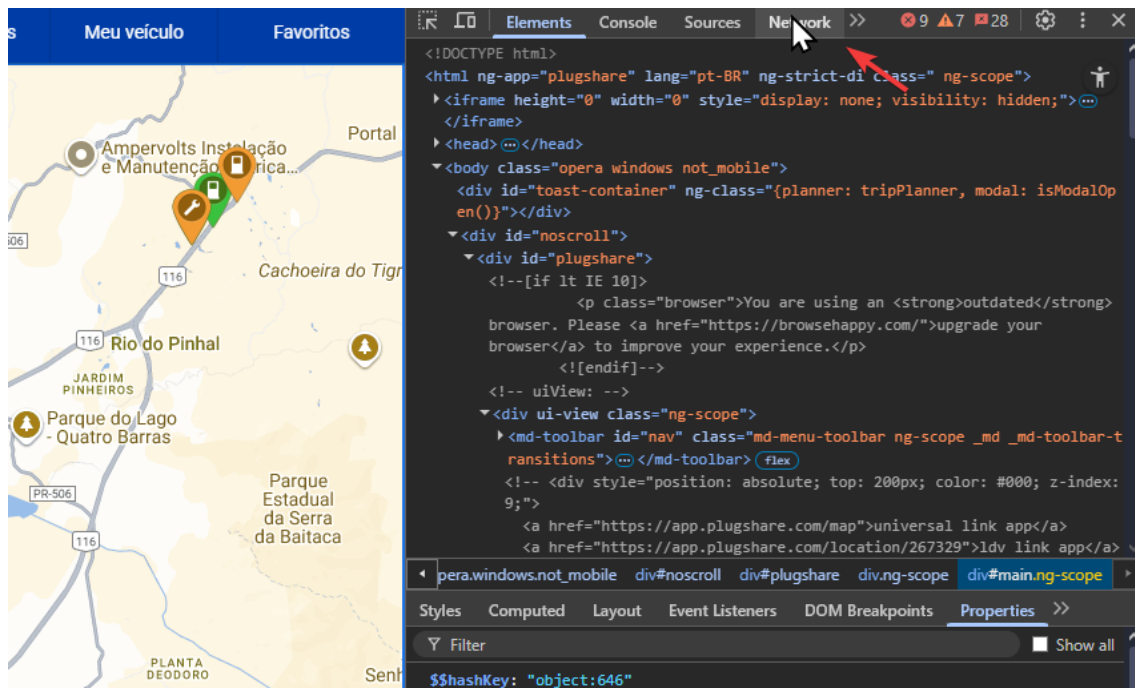

1 clicar com botão direito no fundo

2 clicar em inspecionar elemento

3 no topo da tela que abriu deve ter uma aba chamada network, se não,

procurar uma seta ao lado das abas >> ou três pontos na vertical e selecionar Network

5 nessa tela terá muitos registros em uma tabela

6 procurar o registro que comesse com "region?access"

The screenshot shows a web browser's Network tab. On the left, a map of a region in Brazil is visible, with a red arrow pointing to a specific location. The main part of the image is the Network tab, which displays a list of requests. The table below represents the data shown in the Network tab.

Name	Status	Type	Initiator	Size	Time
vt?pb=!1m5!1m4!1i12!2i1487!...	200	webp	common.js:184	(disk ca...)	3 ms
